OVERVIEW:

We are delighted to again present this unique Australian tour in 2022. Australia is a 'big country' but no other region portrays the vastness, the variety and the beauty of the country more so than the Northern Territory and northern Western Australia. It is a land of spectacular contrasts, incredible mountain ranges, waterways teeming with wildlife and waterfalls cascading over towering escarpments. Enjoy river, lake and harbour cruises, breath-taking scenery of the superb flora and fauna. You will experience warm, blue sky days and mild evenings. The contrast of the outback to the Indian Ocean make the regions a 'must see'. The tour itinerary will ensure you have an unbelievably "beaut" Australian holiday. The tour has operated so successfully in its current format for a number of years now but each year we still make little changes to further enhance the total experience. There will be many daily highlights in your travels and let's not forget the delightful towns and cities such as Alice Springs, Darwin, Broome and Perth.
